Journal of the American College of Cardiology (JACC) is indexed/abstracted in MEDLINE/PubMed, Index Medicus/Abridged Index Medicus, Science Citation Index, EMBASE/Excerpta Medica, Elsevier BIOBASE/Current Awareness in Biological Sciences, Chemical Abstracts, Cumulative Index to Nursing & Allied Health Literature (CINAHL), Current Contents, Reference Update, BIOSIS, and SCOPUS.

JACC JOURNAL CME is a convenient way to fulfill your CME requirements while learning important information about the latest advances in cardiovascular medicine. Each month, 1 article in the Journal of the American College of Cardiology provides a companion online CME activity at: http://cme.jaccjournals.org. You can earn up to 1 AMA PRA Category 1 Credit™ for each CME activity successfully completed. The CME designated article may generally be found in the third issue of each month. Articles designated for CME are identified by the green CME icon, both in print and online. The online CME quizzes provide immediate results and confirmation of credit earned, and are available for 1 year from the journal issue date. It is expected that 30 minutes will be needed to complete the activity, although up to 1 hour for longer, more complex articles is authorized.

OVERALL OBJECTIVES FOR JACC JOURNAL CME: After reading and reflecting upon an article in the Journal of the American College of Cardiology, the learner should be able to:
- demonstrate an increase in or affirmation of his/her knowledge of clinical cardiology
- evaluate the appropriateness of the clinical information as it applies to the provision of patient care
- demonstrate an increase in the knowledge required to maintain competence, and
- strengthen the habits of critical inquiry and balanced judgment.

TARGET AUDIENCE: JACC Journal CME is intended for physicians who treat patients with cardiovascular diseases.

DISCLOSURES: Editor-in-Chief Valentin Fuster, MD, PhD, MACC, has noth-
ing to disclose.

Journal of the American College of Cardiology does not hold itself responsible for statements made by any contributor. Statements or opinions expressed in JACC reflect the view of the author(s) and do not represent official policy of the American College of Cardiology unless so stated.

No responsibility is assumed by the American College of Cardiology or the Publisher for any injury or damage to persons or property as a matter of a product’s liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein. No suggested test or procedure should be carried out unless, in the reader’s judgment, its risk is justified. Because of rapid advances in the medical sciences, we recommend that the independent verification of diagnosis and drug dosages should be made. Discussions, views and recommendations as to medical procedures, choice of drugs and drug dosages are the responsibility of the authors.

Although all advertising material published in JACC is expected to conform to ethical (medical) standards, inclusion in this publication does not constitute a guarantee or endorsement by the American College of Cardiology Foundation or the Publisher of the quality or value of such product or of the claim made of it by its manufacturer.
