CME IN JACC: CARDIOVASCULAR IMAGING: One article in each issue of JACC: Cardiovascular Imaging provides a companion online CME activity at http://imaging.onlinejacc.org. A maximum of 1 AMA PRA Category 1 Credit can be earned for each CME activity successfully completed. Articles designated for CME are identified by the green CME icon in the print journal and online at http://imaging.onlinejacc.org. Learners should read the designated CME article, in print or online, and then take the quiz provided. Two out of 3 questions must be answered correctly to earn CME credit. Confirmation of CME credit is immediately provided by e-mail. Each CME activity is available for 1 year from the journal issue date.

OVERALL OBJECTIVES FOR JACC CME: After reading and carefully reflecting upon an article in JACC: Cardiovascular Imaging, the learner should be able to:

- demonstrate an increase in or affirmation of his/her knowledge
- evaluate the appropriateness of the clinical information as it applies to the provision of patient care
- demonstrate an increase in the knowledge required to maintain competence, and
- strengthen the habits of critical inquiry and balanced judgment.

TARGET AUDIENCE: This educational activity is intended for physicians who treat patients with cardiovascular diseases.

EDITOR’S DISCLOSURE*: Jagat Narula, MD, FACC, Editor-in-Chief, reports that he has nothing to disclose.

*A complete listing of the Associate Editors and their disclosures is available at www.imaging.onlinejacc.org.

EDITORIAL STAFF DISCLOSURES: The editorial staff members have no financial relationship to disclose.

JACC: CARDIOVASCULAR IMAGING does not hold itself responsible for statements made by any contributor. Statements or opinions expressed in JACC: Cardiovascular Imaging reflect the view of the author(s) and do not represent official policy of the American College of Cardiology unless so stated.

No responsibility is assumed by the American College of Cardiology or the Publisher for any injury or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein. No suggested test or procedure should be carried out unless, in the reader’s judgment, its risk is justified. Because of rapid advances in the medical sciences, we recommend that the independent verification of diagnosis and drug dosages should be made. Discussions, views and recommendations as to medical procedures, choice of drugs and drug dosages are the responsibility of the authors. Although all advertising material published in JACC: Cardiovascular Imaging is expected to conform to ethical (medical) standards, inclusion in this publication does not constitute a guarantee or endorsement by the American College of Cardiology Foundation or the Publisher of the quality or value of such product or of the claim made of it by its manufacturer.
